Declaration of Consolidated Financial Statements of Affiliated Enterprises

In 2024 (from January 1, 2024 to December 31, 2024), the companies required to be included in the

consolidated financial statements of affiliates under the "Criteria Governing Preparation of Affiliation

Reports, Consolidated Business Reports and consolidated financial statements of Affiliated

Enterprises" are all the same as companies required to be included in the consolidated financial

statements of parent and subsidiary companies as provided in the International Financial Reporting

Standards (IFRS) 10, and relevant information that should be disclosed in the consolidated financial

statements of affiliates has all been disclosed in the consolidated financial statements of parent and

subsidiary companies. The Company hereby produces this declaration to the effect that no preparation

for the separate consolidated financial statements of affiliates is required.

Hereby declare,

Company name: ETRON TECHNOLOGY, INC.

Chairman: Chao-Chun Lu

Independent Auditors' Report

(2025) Cai-Shen-Bao-Zi No. 24003785

To the Board of Directors and Shareholders of Etron Technology, Inc.:

Opinion

We have audited the accompanying consolidated balance sheets of Etron Technology, Inc. and subsidiaries (the "Group") as at December 31, 2024 and 2023, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the report of other auditors (please refer to the Other matter section), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for Opinions

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountants of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Based on our audits and the report of other auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2024 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2024 consolidated financial statements are stated as follows:

Key audit matters - Valuation of accounts receivable

Description

Please refer to Note 4(11) for accounting policies on valuation of accounts receivable, Note 5 for the uncertainty of accounting estimates and assumptions related to valuation of accounts receivable, and Note 6(5) for details of accounts receivable. As of December 31, 2024, the total amount of accounts receivable and allowance for uncollectible accounts were NT\$835,652 thousand and NT\$76,244 thousand, respectively.

The Group assesses the allowance for uncollectible accounts receivable by each individual counterparty when there are significant past due accounts receivable arising from each individual counterparty. The valuation of allowance for uncollectible accounts receivable for the remaining counterparties is based on the default risk and expected loss rate. The amount of accounts receivable is material to the parent company only financial statements and the valuation involves subjective judgment made by management. Thus, we consider the valuation of accounts receivable a key audit matter.

How our audit addressed the matter

The procedures performed by us for the impairment assessment of accounts receivable are summarized as follows:

- 1. Obtain an understanding and evaluating the design and operating effectiveness of internal controls related to sales and collection cycle.
- 2. Obtain the aging analysis report and validate its accuracy.
- 3. Obtain relevant assessment made by management in identifying significant expected credit loss for each individual customer and respective supporting documents. Evaluate the reasonableness

- of expected credit loss ratios based on the historical data of similar credit risk groups while also considering forward-looking information.
- 4. Perform subsequent collection testing to assess the reasonableness of allowance for uncollectable accounts receivables.

Key audit matters - Valuation of inventories

Description

Refer to Note 4(14) for accounting policies on valuation of inventories, Note 5 of the consolidated financial statements for the uncertainty of accounting estimates and assumptions related to valuation of inventories, and Note 6(6) of the consolidated financial statements for details of inventories. As of December 31, 2024, the total amount of inventories and allowance for inventory valuation loss were NT\$3,016,966 thousand and NT\$480,110 thousand, respectively.

The Group is primarily engaged in the design, manufacturing and sale of niche memory chips. Due to rapidly technology changing and market demand, there is a higher risk of decline in market values of inventories or obsolescence. The Group's inventories are measured at the lower of cost and net realizable value. The estimation of net realizable value for inventories aged over a certain period of time and individually identified as obsolete involves management's subjective judgment and the amount of inventories is material to the Group's financial statements. Thus, we consider the valuation of inventories a key audit matter.

How our audit addressed the matter

The procedures performed by us for the assessment of allowance for inventory valuation loss are summarized as follows:

- 1. Understand and assess the reasonableness of the policy for recognizing allowance for inventory valuation losses.
- 2. Test the inventory aging report, including randomly inspecting year-end inventory quantities and amounts to ensure consistency with the inventory details and confirm the accuracy of the aging classification.
- 3. Evaluate and validate the reasonableness of the estimated net realizable value to confirm the adequacy of the allowance for inventory valuation loss.

Other matter - Reference to the audits of other auditors

We did not audit the financial statements of certain investments accounted for under the equity method recognized by the Group's investee accounted for under the equity method which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in respect of these associates, is based solely on the reports of the other auditors. The balances of these investments accounted for under the equity method amounted to NT\$302,780 thousand and NT\$286,929 thousand, constituting 4.50% and 4.20% of the consolidated total assets as at December 31, 2024 and 2023, and the comprehensive income recognized from investments accounted for under the equity method amounted to NT(\$2,491) thousand and NT(\$4,245) thousand, constituting 0.36% and 0.47% of the consolidated total comprehensive income for the years then ended, respectively.

Other matter - Parent company only financial reports

We have audited and expressed an unqualified opinion with other matter section on the parent company only financial statements of Etron Technology, Inc. as at and for the years ended December 31, 2024 and 2023.

Responsibilities of management and those charged with governance for the consolidated financial statements

To ensure that the consolidated financial statements do not contain material misstatements caused by fraud or errors, the management is responsible for preparing prudent consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, as well as the IFRS, IAS, law and regulation reviews and their announcements recognized and announced by the Financial Supervisory Commission, and for preparing and maintaining necessary internal control procedures pertaining to the consolidated financial statements.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine the key audit matters of the Group in the audit of the consolidated financial statements for the year ended December 31, 2024. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ETRON TECHNOLOGY, INC. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

Expressed in thousands of NTD (Except as otherwise indicated)

1. Company History

Etron Technology, Inc. (the "Company") was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.). The Company and its subsidiaries (collectively referred herein as the "Group") are primarily engaged in the manufacturing and design of various integrated circuits.

2. The Date of Authorization for Issuance of the Financial Statements and Procedures for Authorization

These consolidated financial statements were authorized for issuance by the Board of Directors on March 7, 2025.

3. Application of New Standards, Amendments and Interpretations

(1) Effect of the adoption of new issuance of or amendments to International Financial Reporting Standards ("IFRS") that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC and became effective from 2024 are as follows:

	Publication Effective
	Date of the
	International
	Accounting Standards
New/Revised/Amended Standards and Interpretations	Board
Amendments to IFRS 16, "Lease Liability in a Sale and Leaseback"	January 1, 2024
Amendments to IAS 1, "Classification of Liabilities as Current or Non-current"	January 1, 2024
Amendments to IAS 1, "Non-current Liabilities with Covenants"	January 1, 2024
Amendments to IFRS 7 and IAS 7, "Supplier Finance Arrangements"	January 1, 2024

The above standards and interpretations have been assessed to have no significant impact on the Group's financial position and financial performance.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2025 are as follows:

	Publication Effective
	Date of the
	International
	Accounting Standards
New/Revised/Amended Standards and Interpretations	Board
Amendments to IAS 21, "Lack of Exchangeability"	January 1, 2025

The above standards and interpretations have been assessed to have no significant impact on the Group's financial position and financial performance.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

	Publication Effective Date of the International Accounting
New/Revised/Amended Standards and Interpretations	Standards Board
Amendments to IFRS 9 and IFRS 7, 'Amendments to the Classification and Measurement of Financial Instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts Referencing Nature-dependent Electricity'	January 1, 2026
Amendments to IFRS 10 and IAS 28, "Sale or contribution of assets between an investor and its associate or joint venture"	To be determined by International Accounting
IFRS 17, "Insurance contracts"	January 1, 2023
Amendments to IFRS 17, "Insurance contracts"	January 1, 2023
Amendment to IFRS 17, "Initial application of IFRS 17 and IFRS 9 – comparative information"	January 1, 2023
IFRS 18 'Presentation and Disclosure in Financial Statements'	January 1, 2027
IFRS 19 'Subsidiaries without Public Accountability: Disclosure'	January 1, 2027
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026

Except for those mentioned below, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

A. Amendments to IFRS 9 and IFRS 7, 'Amendments to the Classification and Measurement of Financial Instruments'

The amendments are explained as follows:

Updates regarding irrevocable designations for equity instruments measured at fair value through other comprehensive income (FVOCI) should disclose their fair value by each category, without the need to disclose fair value information for each individual instrument. Additionally, the amount of fair value gains or losses recognized in other comprehensive income during the reporting period should be disclosed separately, showing the amount of fair value gains or losses related to investments that were derecognized during the reporting period, as well as the amount of fair value gains or losses related to investments still held as of the end of the reporting period. Furthermore, the cumulative gains or losses transferred to equity from investments derecognized during the reporting period should also be disclosed.

B. IFRS 18 'Presentation and Disclosure in Financial Statements'

IFRS 18 'Presentation and Disclosure of Financial Statements' replaces IAS 1 and updates the structure of the statement of comprehensive income, introduces new disclosures on management performance measurement, and strengthens the principles of aggregation and disaggregation applied in the main financial statements and notes.

4. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Preparation basis

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
 - (1) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (2) Financial assets at fair value through other comprehensive income.
 - (3) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with "IFRSs" requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements
 - (1) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (2) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

- (3) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.
- (4) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- (5) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (1) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (2) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (3) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, nonmonetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (4) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.

B. Translation differences of foreign operations

(1) The operating results and financial position of all the group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- iii. All resulting exchange differences are recognized in other comprehensive income.
- (2) When the foreign operation partially disposed of or sold is an associate, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the gain or loss on sale. In addition, even when the Group retains partial interest in the former foreign associate after losing significant influence over the former foreign associate, such transactions should be accounted for as disposal of all interest in these foreign operations.
- (3) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets:
 - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle.
 - (b) Assets held mainly for trading purposes.
 - (c) Assets that are expected to be realized within twelve months from the balance sheet date.
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged used to settle liabilities more than twelve months after the balance sheet date.

The Group classifies all other assets not meeting the above mentioned criteria as non-current assets.

- B. Liabilities that meet one of the following criteria are classified as current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle.
 - (b) Assets held mainly for trading purposes.
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date.
 - (d) Those who do not have the right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities not meeting the above mentioned criteria as non-current liabilities.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the above definition and are held to fulfill short-term cash commitments in operations are classified as cash equivalents.

- (7) Financial assets at fair value through profit or loss
 - A. Financial assets that are not measured at amortized cost nor at fair value through other comprehensive income.
 - B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
 - C. At initial recognition, the Group measures the financial assets at fair value and recognizes the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
 - D. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
- (8) Financial assets at fair value through other comprehensive income
 - A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (1) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets.
 - (2) The terms of the financial asset contract generate a cash flow on a specified date that is solely for the payment of interest on the principal and the amount of principal outstanding.
 - B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
 - C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
 - The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
- (9) Financial assets at amortized cost
 - A. Financial assets at amortized cost are those that meet all of the following criteria:
 - (1) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (2) The terms of the financial asset contract generate a cash flow on a specified date that is solely for the payment of interest on the principal and the amount of principal outstanding.
 - B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
 - C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. A gain or loss is recognized in profit or loss when the asset is derecognized or impaired.

D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(11) Impairment of financial assets

- A. For financial assets at amortized cost, at each reporting date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts.
- B. For accounts receivable that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

(13) Leasing arrangements (lessor) - operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(14) Inventories

Inventory is valued at the lower of cost or net realizable value, with cost calculated using the weighted average method. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and selling expenses.

(15) Investments accounted for using the equity method/associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income.

- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.
- E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- F. Upon loss of significant influence over an associate, the Group remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognized in profit or loss.
- G. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- H. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.

(16) Property, plant, and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.
- C. Land is not depreciated. Other property, plant and equipment apply cost model for subsequent measurement and are depreciated using the straight-line method to allocate their cost over their estimated useful lives.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors,' from the date of the change.

The estimated useful lives of the main property, plant and equipment are as follows:

Buildings and structures 3-50 years
Machinery and equipment 2-10 years
Other equipment 2-10 years

(17) Leasing arrangements (lessee) - right-of-use asset / lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the Group's incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost. Cost recognized is the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

(18) Intangible assets

A. Patents and special technology

Separately acquired patents and special technology are stated at historical cost. Patents and special technology have a finite useful life and are amortized on a straight-line basis over their economic benefits.

B. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its contract period.

(19) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(20) Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(21) Accounts and notes payable

Accounts and notes payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(22) Financial liabilities at fair value through profit or loss

Mandatory convertible bonds

- A. Mandatory convertible bonds issued by the Group are initially recognized at fair value. The bonds will be settled by exchanging a fixed amount for an unfixed number of shares, which does not meet the definition of an equity component, and therefore are classified as liabilities. The bonds are subsequently remeasured at the present value of the redemption amount over the period of circulation.
- B. The mandatory convertible bonds are transferred from liabilities to equity when the bonds are converted at maturity.

(23) Convertible bonds payable

Convertible bonds issued by the Group contain conversion options (that is, the bondholders have the right to convert the bonds into the Group's common shares by exchanging a fixed amount of cash for a fixed number of common shares), call options and put options. The Group classifies the bonds payable upon issuance as a financial asset, a financial liability or an equity instrument in accordance with the contract terms. They are accounted for as follows:

- A. The embedded call options and put options are recognized initially at net fair value as 'financial assets or financial liabilities at fair value through profit or loss.' They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognized as 'gain or loss on valuation of financial assets or financial liabilities at fair value through profit or loss.'
- B. The host contracts of bonds are initially recognized at fair value. Any difference between the initial recognition and the redemption value is accounted for as the premium or discount on bonds payable and subsequently is amortized in profit or loss as an adjustment to 'finance costs' over the period of circulation using the effective interest method.
- C. The embedded conversion options which meet the definition of an equity instrument are initially recognized in 'capital surplus—share options' at the residual amount of total issue price less the amount of financial assets or financial liabilities at fair value through profit or loss and bonds payable as stated above. Conversion options are not subsequently remeasured.
- D. Any transaction costs directly attributable to the issuance are allocated to each liability or equity component in proportion to the initial carrying amount of each abovementioned item.

E. When bondholders exercise conversion options, the liability component of the bonds (including bonds payable and 'financial assets or financial liabilities at fair value through profit or loss') shall be remeasured on the conversion date. The issuance cost of converted common shares is the total book value of the abovementioned liability component and 'capital surplus - share options.'

(24) Derecognition of financial liabilities

A financial liability is derecognized by the Group when the obligation specified in the contract is either discharged or cancelled or expired.

(25) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(1) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expense when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(2) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead and conducts an actuarial valuation at the end of the year.
- ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates

(26) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and nonvesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.

(27) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.

(28) Share capital

A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

B. Where the Group repurchases the Group's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Group's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Group's equity holders.

(29) Dividends

Dividends are recorded in the Group's financial statements in the period in which they are resolved by the Group's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(30) Revenue recognition

A. Sales of goods

The Group designs, manufactures and sells integrated circuits. Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. As the time interval between the transfer of committed goods and the payment of customer does not exceed one year, the Group does not adjust the transaction price to reflect the time value of money.

B. A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(31) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the company will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate.

(32) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

5. Primary Sources of Uncertainties in Material Accounting Judgments, Estimates, and Assumptions

The preparation of these consolidated financial statements requires management to make critical judgments in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Group's accounting policies None.

(2) Critical accounting estimates and assumptions

A. Valuation of accounts receivable

The Group evaluates the allowance for uncollectible accounts receivable by individual counterparties when there are significant past due accounts receivable arising from those individual counterparties. The evaluation of allowance for uncollectible accounts and notes receivable for the remaining counterparties is based on the default risk and expected loss rate. The Group considers the historical experience in determining the assumptions adopted and the inputs used when calculating the impairment. Such valuation of accounts receivable is estimated based on the reasonable expectation about expected credit losses on the basis of conditions existing at the balance sheet date although the estimation may differ from the actual result. Therefore, there might be material changes to the evaluation.

As of December 31, 2024, the carrying amount of accounts receivable was \$759,408.

B. Valuation of inventories

As inventories are stated at the lower of cost and net realizable value, the Group must determine the net realizable value of inventories on balance sheet date using judgments and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realizable value. Such valuation of inventories is valuated based on the current market conditions and historical sales experience. Any changes in the market conditions may have material impact on the results of valuation. Therefore, there might be material changes to the evaluation.

As of December 31, 2024, the carrying amount of inventories was \$2,536,856.

6. Details of Significant Accounts

(1) Cash and cash equivalents

	Decen	mber 31, 2024	December 31, 2023	
Cash on hand and revolving funds	\$	2,906	\$	3,785
Checking accounts and demand deposits		687,493		531,167
Time deposits		94,831		166,663
Deposits in transit		<u>-</u>		5,480
Total	\$	785,230	\$	707,095

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Group's cash and cash equivalents shown on the balance sheet were not pledged to others as collateral. Details of the Company's cash and cash equivalents (shown as current and noncurrent financial assets at amortized cost) pledged to others as collateral are provided in Note 8.

(2) Financial assets at fair value through profit or loss

Item	December 31, 2024		December 31, 2023	
Current items:				
Listed stocks	\$	27,602	\$	27,602
Valuation adjustment				
Equity instruments	(19,949)	(16,904)
Foreign exchange swap contracts				2,420
Total	\$	7,653	\$	13,118

- A. The Group recognized net profit (loss) amounting to (\$5,464) and \$13,041 on financial assets at fair value through profit or loss for the years ended December 31, 2024 and 2023, respectively.
- B. The Group entered into contracts relating to derivative financial assets which were not accounted for under hedge accounting. The information is listed below:

December 31, 2024: None.

		December 31, 2023				
	C	Contract amount				
Derivatives/ financial assets	(N	Contract period				
Assets - current items:						
Foreign exchange swap contracts	USD	4,000 thousands	2023.12.5			
			\sim 2024.2.29			

- C. The Group entered into forward exchange contracts and foreign exchange swap contracts to hedge exchange rate risk of export proceeds. However, these contracts are not accounted for under hedge accounting.
- D. The Group has no financial assets at fair value through profit or loss pledged to others as collateral.
- (3) Financial assets at fair value through other comprehensive income

Item	December 31, 2024		December 31, 2023	
Non-current items:				
Listed stocks	\$	91,608	\$	91,248
Unlisted stocks		534,673		442,347
Valuation adjustment		118,576		251,077
Total	\$	744,857	\$	784,672

A. The Group has elected to classify equity investments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$744,857 and \$784,672 as at December 31, 2024 and 2023, respectively.

B. Amounts recognized in other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

_	Years ended December 31,				
		2024	2023		
Equity instruments at fair value through other					
comprehensive income					
Fair value change recognized in other					
comprehensive (loss) income	<u>(\$</u>	143,165)	\$	83,547	
Cumulative losses (gains) reclassified to retained					
earnings due to derecognition	\$	<u> </u>	\$	57,000	
Dividend income recognized in profit or loss					
held at end of year	\$	96,332	\$	71,246	

- C. For the year ended December 31, 2024, the Group recovered investment cost of \$3,786 from the investee, Walden Technology Ventures II, L.P and Arm IoT Fund L.P.
- D. For the year ended December 31, 2023, the Group recovered investment cost of \$6,881 from the investee, Walden Technology Ventures II, L.P.
- E. During the fiscal year 2024, the Group made the decision to dispose Senti Biosciences, Inc, the investment target, from the consolidated financial statements. As a result, an accumulated evaluation loss of \$1 was transferred to retained earnings.
- F. During the fiscal year 2023, our group made the decision to exclude Feng Hong Technology Corporation, the investment target, from the consolidated financial statements. As a result, an accumulated evaluation loss of \$57,000 was transferred to retained earnings.
- G. The Group has no financial assets at fair value through other comprehensive income pledged to others as collateral.
- (4) Financial assets at amortized cost

	December 31, 2024	December 31, 2023
Current items Restricted time deposits and performance guarantee	\$ 7,150	\$ 3,307
Non-current items Restricted time deposits	\$ 5,941	\$ 5,941

A. Amounts recognized in profit or loss in relation to financial assets at amortized cost are listed below:

	Years ended December 31,				
		2024	2023		
Interest income	\$	71	\$	52	

B. Information relating to credit risk of financial assets at amortized cost is provided in Note 12(2). The counterparties of the Group's investments in certificates of deposits are financial institutions with high credit quality, so the Group expects that the probability of counterparty default is remote.

(5) Notes and accounts receivable

	Decer	nber 31, 2024	December 31, 2023		
Notes receivable	\$	28,361	\$	1,818	
Accounts receivable		835,652		721,380	
Less: Allowance for uncollectible accounts	(76,244)	(76,780)	
	\$	787,769	\$	646,418	

A. The ageing analysis of accounts and notes receivable that were past due but not impaired is as follows:

	December	31, 2024	December 31, 2023			
	Accounts receivable			Notes receivable		
Not Past Due	\$ 675,907	\$ 28,361	\$ 597,565	\$ 1,818		
Up to 30 days	51,506	-	41,366	-		
31 to 90 days	108,239	-	81,491	-		
91 to 120 days	<u> </u>		958	<u>-</u>		
	\$ 835,652	\$ 28,361	\$ 721,380	\$ 1,818		

The above aging schedule for ageing analysis was calculated based on expected payment date.

- B. As of December 31, 2024 and 2023, and January 1, 2023, the balances of receivables from contracts with customers amounted to \$864,013, \$723,198 and \$1,034,651, respectively.
- C. As at December 31, 2024 and 2023, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's accounts and notes receivable was \$787,769 and \$646,418, respectively.
- D. Information relating to credit risk is provided in Note 12(2).

(6) Inventories

	December 31, 2024					
	Allowance for Cost valuation loss				Carrying amount	
Raw materials	\$	576,619	(\$	21,506)	\$	555,113

	\$	884,740	Alle val	owance for uation loss 38,668)		amount 846,072

The cost of inventories recognized as expense for the year:

	Years ended December 31,						
		2024	2023				
Cost of goods sold (including cost of services)	\$	3,016,571	\$	2,653,094			
Loss on decline in market value		13,831		91,575			
Transferred to expenses		14,777		17,049			
	\$	3,045,179	\$	2,761,718			

- (7) Investments Accounted for Using the Equity Method
 - A. Details of changes in investments accounted for using the equity method are as follows:

	Decemb	per 31, 2024	December 31, 2023		
	Carrying	Shareholding	Carrying	Shareholding	
<u>Investees</u>	amount	ratio	amount	ratio	
Investments Accounted for Using the					
Equity Method					
Great Team Backend					
Foundry,Inc.	\$302,780	42.41%	\$286,929	42.18%	

B. The summarized financial information of the associates that are material to the Group is as follows:

	Decem	ber 31, 2024	December 31, 2023			
Assets	\$	711,182	\$	817,479		
Liabilities	\$	97,703	\$	91,497		
		Years ended	December	31,		
		2024		2023		
Revenue Profit (loss) for the year	<u>\$</u> (\$	2,962 31,166)	<u>\$</u> (\$	6,751 4,096)		

- C. For the years ended December 31, 2024 and 2023, the investment (loss) profit and other comprehensive (loss) income of investments accounted for using the equity method amounted to (\$12,197) and \$306, \$9,706 and (\$4,551), respectively.
- D. The Group is the largest shareholder of Great Team Backend Foundry, Inc. with a 42.41% equity interest. However, in accordance with rule for director election stated in the Articles of Incorporation of the investee, the Group could not obtain more than half of the seats on the Board, which indicated that the Group has no right to direct the operating decisions. Thus, the investee was accounted for using the equity method.

	<u>\$</u>	<u> </u>	<u>\$</u>	752,129	

A. Domestic convertible bonds issued by the Company

The terms of the third domestic unsecured convertible bonds issued by the Company are as follows:

- (1) The Company issued \$800,000 at 100.8% of face value, the third domestic unsecured convertible bonds, as approved by the regulatory authority. The bonds mature 5 years from the issue date (May 24, 2022 May 24, 2027) and will be redeemed in cash at face value at the maturity date. The bonds were listed on the Taipei Exchange on May 24, 2022.
- (2) The bondholders have the right to ask for conversion of the bonds into common shares of the Group during the period from the date after three months of the bonds issue to the maturity date, except for the stop transfer period as specified in the terms of the bonds or the laws/regulations. The rights and obligations of the new shares converted from the bonds are the same as the issued and outstanding common shares

- (3) The effective date for the conversion price of the convertible bonds was set on May 16, 2022. The conversion price was set up based on multiplying a benchmark price which was the closing price of the Company's common share calculated at simple arithmetic mean of one of 1, 3, 5 trading days before the effective date (effective date is excluded) by convertible premium rate of 106%. If there is an ex-right or ex-dividend before the pricing effective date, the closing price adopted to calculate conversion price shall be imputed with ex-right or ex-dividend; if there is an ex-right or ex-dividend during the period that the conversion price was set up but prior to share issuance, the conversion price shall be adjusted based on the conversion price adjustment formula. The conversion price was NT\$63.9 (in dollars) per share based on the aforementioned method. After the effective date of the ex-right and ex-dividend, September 20, 2022, the conversion price was adjusted from NT\$63.9 (in dollars) to NT\$59.9 (in dollars). After the effective date of the ex-right and ex-dividend, September 9, 2023, the conversion price was adjusted from NT\$59.9 (in dollars) to NT\$59.1 (in dollars). After the effective date of the cash capital increase, August 6, 2024, the conversion price was adjusted from NT\$59.1(in dollars) to NT\$58 (in dollars).
- (4) The Company may repurchase the bonds held by bondholders in cash at the bonds' face value at any time after the following events occur: (i) the closing price of the Company's common shares is above the then conversion price by 30% for 30 consecutive trading days during the period from the date after three months of the bonds issue to 40 days before the maturity date, or (ii) the outstanding balance of the bonds is less than 10% of total initial issue amount during the period within 30 days after three months of the bonds issue to 40 days before the maturity date.
- (5) The date of full three years after the issuance of the convertible bonds shall be the early redemption reference date for bondholders to request the Company to redeem their convertible bonds in cash at a redemption price (100.751877% of the face value of the bonds, including interest) 40 days prior to the redemption reference date.
- (6) Under the terms of the bonds, all bonds redeemed (including bonds repurchased from the Taipei Exchange), matured and converted are retired and not to be re-issued; all rights and obligations attached to the bonds are also extinguished.
- B. Regarding the issuance of convertible bonds, the equity conversion options amounting to \$60,648 were separated from the liability component and were recognized in 'capital surplus— share options' in accordance with IAS 32. The call and put options and put options embedded in bonds payable were separated from their host contracts and were recognized in 'financial assets or liabilities at fair value through profit or loss' in net amount in accordance with IFRS 9 because the economic characteristics and risks of the embedded derivatives were not closely related to those of the host contracts.
- C. As of December 31, 2024, the Company's the third domestic unsecured convertible bonds have not been exercised.
- D. For the year ended December 31, 2022, the amount of convertible bonds repurchased by the Company (including repurchased from Taipei Exchange) was \$5,600.

(18) Long-term borrowings

Types of borrowings	Repayment term	Ι	December 31, 2024		December 31, 2023

- A. Interest rate ranges as of December 31, 2024 and 2023 for the above borrowings were 2.38%-3.75% and 2.178%-3.75%, respectively.
- B. Information about the collateral pledged for the aforementioned secured borrowings is provided in Note 8.

(19) Pensions

A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units

accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee.

(2) The amounts recognized in the balance sheet are as follows:

	December	31, 2024	December 31, 2023	
Present value of defined benefit obligation	(\$	79,841)	(\$	86,924)

(4) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2024 and 2023 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(5) The principal actuarial assumptions used were as follows:

	2024	2023
Discount rate	<u>1.6%</u>	<u>1.20%</u>
Future salary increases	<u>2.5%</u>	<u>2.50%</u>

Assumptions regarding future mortality experience are set based on the 6th Taiwan Standard Ordinary Experience Mortality Table for the years ended December 31, 2024 and 2023.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discour	nt rate	Future salary increases		
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%	
December 31, 2024					
Effect on present value of defined benefit obligation December 31, 2023	(\$ 1,415)	\$ 1,455	\$ 1,438	(\$ 1,406)	
Effect on present value of defined benefit obligation	<u>(\$ 1,707)</u>	\$ 1,758	<u>\$ 1,731</u>	<u>(\$ 1,690)</u>	

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analyzing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

- (6) Expected contributions to the defined benefit pension plans of the Company for the year ended December 31, 2025 amount to \$1,801.
- (7) As of December 31, 2024, the weighted average duration of the retirement plan is 7 years. The analysis of timing of the future pension payment was as follows:

		Amount
Within 1 year	\$	2,591
1-2 year(s)	·	2,480
2-5 years		28,101
Over 5 years		55,853
	\$	89,025

- B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
 - (2) The Group's mainland China subsidiary, Fullboom Electronic (Shenzhen), has a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.
 - (3) Etron Technology (HK) Limited have a defined contribution plan. Annual pension contributions or retirement allowance for the locally hired employees are based on their salaries and wages. Other than the annual contributions, the Group has no further obligations
 - (4) The pension costs under defined contribution pension plans of the Group for the years ended December 31, 2024 and 2023, were \$31,021 and \$30,302, respectively.

(20) Share capital

A. As of December 31, 2024, the Company's authorized capital was \$6,500,000, consisting of 650 million shares of ordinary stock (including 65 million shares reserved for employee stock options), and the paid-in capital was \$3,255,958 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

Movements in the number of the Company's ordinary shares outstanding are as follows:

	2024	Unit: Thousand shares 2023
January 1	288,933	284,062
Cash capital increase	35,000	-
Capitalization of earnings	-	3,979
Exercise of employee share options	1,663	892
December 31	325,596	288,933

- B. For the year ended December 31, 2024, the employees exercised 1,214 thousand shares of stock options in accordance with the terms of stock options. 1,663 thousand shares have been registered (including 449 thousand shares paid but yet to be registered at the beginning of the period).
- C. For the year ended December 31, 2023, the employees exercised 1,191 thousand shares of stock options in accordance with the terms of stock options. 892 thousand shares have been registered (including 150 thousand shares paid but yet to be registered at the beginning of the period). Proceeds from the remaining 449 thousand shares amounting to \$17,143 have been collected as of December 31, 2023 and the effective date of the capital increase for conversion was set on March 14, 2024 as resolved by the Board of Directors on March 13, 2024.

D. On May 8, 2024, the Board of Directors of the Company resolved to conduct a cash capital increase by issuing common shares, with the maximum number of shares set at 43 million. Subsequently, it was decided to issue 35 million shares at an issue price of NT\$38 per share. The cash capital raised, amounting to NT\$1,330,000, was fully received on August 6, 2024, which was also set as the record date for the cash capital increase. The aforementioned cash capital increase was successfully registered and completed on August 22, 2024.

(21) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. However, capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(22) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset operating losses and then 10% of the remaining amount shall be set aside as legal reserve. Also, the Company shall set aside or reverse special reserve as resolved by the stockholders, or by order of the competent authority. The appropriation of remaining earnings along with accumulated unappropriated earnings from prior years shall be proposed by the Board of Directors and approved by the shareholders.
- B. The Company's dividend policy is set out by the Board of Directors according to the Company's medium- and long-term operational plan, investment plans, capital budget as well as internal and external situations, while considering the interests of stockholders. Except for the aforementioned regulations, cash dividends shall not be less than 5% of total dividends when appropriating the dividends to stockholders.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- E. The appropriation of 2022 earnings as proposed by the stockholders on June 27, 2023 is as follows:

	Year ended December 31, 2022			
	Dividend per sh			
	Amount			
Legal reserve	\$ 18,503			
Cash dividends	5,684	\$	0.02	
Stock dividends	39,790		0.14	
Total	\$ 63,977			

- F. On June 25, 2024, the Company's shareholders' meeting resolved to approve the loss make-up proposal for 2023, using NT\$96,910 from the legal reserve and NT\$307,508 from the capital surplus.
- G. The loss make-up proposal for 2023, which was approved by the shareholders' meeting on June 25, 2024, can be found on the Market Observation Post System (MOPS) of the Taiwan Stock Exchange.

B. Financial risk management policies

- (1) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's entire risk management policies focus on unpredictable matters in financial market and reducing the potential negative effects on the Group's financial condition and financial performance.
- (2) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. The Group's treasury identifies, evaluates and reduce financial risks in close co-operation with the Group's operating units. The Group provides written principles for specific areas and matters, such as use of derivative financial instruments.

C. Significant financial risks and degrees of financial risks

(1) Market risk

Exchange rate risk

- i. The consolidated entities exposed to the exchange rate risk arising from operating activities which were denominated in non-functional currency. The Group's functional currency includes New Taiwan dollars, US Dollars, RMB and JPY. Those transactions were mainly denominated in New Taiwan dollars, US Dollars, RMB, HKD and JPY.
- ii. The Group employs foreign currency derivative financial instruments, including forward exchange contracts or foreign exchange swap contracts to hedge exchange rate risk arising from monetary financial assets and liabilities and forecast transactions that are not denominated in NTD. These hedges can minimize the effects of changes in foreign exchange rates on assets and liabilities, but the risk cannot be eliminated entirely.
- iii. The Group's businesses involve some non-functional currency operations (The Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2024						
Foreign							
(Foreign currency:	currency amount			В	ook value		
functional currency)	(In th	ousands)	Exchange rate		(NTD)		
Financial assets

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio.
- The Group invested in domestic and foreign listed and unlisted equity securities. The prices of equity securities would change due to the change of the future value of investee companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 5% with all other variables held constant, before-tax profit for the years ended December 31, 2024 and 2023 would have increased/decreased by \$383 and \$535, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$37,243 and \$39,234, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's interest rate risk arises from time deposits maturing over three months and long-term borrowings at variable rates. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. During the years ended December 31, 2024 and 2023, the Group's borrowings were denominated in New Taiwan dollars and US Dollars at variable rates.
- ii. On December 31, 2024 and 2023, if the borrowing interest rate had increased/decreased by 0.25% with all other variables held constant, profit, net of tax for the years ended December 31, 2024 and 2023 would have decreased / increased by \$72 and \$1,294, respectively. The main factor is that changes in interest expenses resulting from floating-rate borrowings.

iii. On December 31, 2024 and 2023, if the interest rate of New Taiwan dollars time deposits and time deposits maturing over three months had increased/decreased by 0.25% with all other variables held constant, the impact to profit, net of tax for the years ended December 31, 2024 and 2023 would be immaterial. The main factor is that changes in interest income result in floating-rate borrowings.

(2) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. Policy for credit risk management of the Group's operating units is as follows:
 - (i) The Company sets the relevant procedures to monitor, manage and reduce the credit risk of accounts receivable; however, it is not guaranteed that the procedures can effectively exclude the credit risk and avoid losses. The exposure of such credit risk will increase in the deteriorating economic environment.
 - (ii) The Group periodically monitors, reviews and adjusts the credit limits based on the market conditions and credit status of counterparties to timely manage the credit risk. The Group only transacts with banks and financial institutions with high credit quality, and therefore does not expect to assume the credit risk.
 - (iii) The main credit risks arise from deposits with bank and financial institutions, financial assets at amortized cost and receivables.
- ii. The situation that the Group regards as breach of contract specified in the contract are as follows: when the contract payments may not be recovered and have to be transferred to overdue receivables, the default has occurred.
- iii. The Group classifies customers' accounts receivable in accordance with credit rating of customer. The Company applies loss rate methodology to estimate expected credit loss under the provision matrix basis.
- iv. The Group adopts following assumptions to assess whether there has been a significant increase in credit risk on that instrument since initial recognition: If the contract payments were past due over 90 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- v. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) The disappearance of an active market for that financial asset because of financial difficulties:
 - (iii) Default or delinquency in interest or principal repayments.
- vi. The Group used the historical information and the forecastability of Taiwan Institute of Economic Research boom observation report to assess the default possibility of accounts receivable.

- vii. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- viii. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. On December 31, 2024 and 2023, the loss rate methodology is as follows:

		Accounts receivable	le
December 31, 2024	Individual	Group	Total
Expected loss rate		5.55%~7.89%	
Total book value	\$ -	\$ 835,652	\$ 835,652
Loss allowance	\$ -	\$ 76,244	\$ 76,244

Accounts receivable December 31, 2023 Individual Total Group 5.55%~7.89% Expected loss rate _\$ 721,380 Total book value 721,380 \$ \$ 76,780 76,780 Loss allowance

ix. Movements in relation to the Group applying the modified approach to provide loss allowance for accounts receivable are as follows:

		2024		2023
January 1	\$	76,780	\$	82,653
Gain on reversal of expected	(536)	(5,873)
credit loss				
December 31	\$	76,244	\$	76,780

- x. As of December 31, 2024 and 2023, the collateral held by the Group as security for accounts receivable was letters of credit, promissory note and cheques with book value amounting to \$687,057 and \$733,001, respectively.
- xi. Movements in loss allowance for investments in debt instruments carried at amortized cost are as follows:

2024: None.

In 2023, the Group derecognized its investment in preferred stock, which was measured at amortized cost.

	<u></u>			2023

December 31	\$		\$		\$	

(3) Liquidity risk

- i. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs for the next one year.
- ii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in the listed stocks classified as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income is included in Level 1.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in derivatives is included in Level 2.
 - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.
- B. The carrying amounts of financial instruments not measured at fair value including cash and cash equivalents, notes receivable, accounts receivable, other receivables, short-term borrowings, notes payable, accounts payable, other payables, lease liabilities and long-term borrowings are approximate to their fair values.
- C. The related information of financial instruments and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2024 and 2023 are as follows:

December 31, 2024	Le	evel 1	Le	evel 2	L	evel 3		Γotal
Assets Recurring fair value measurements Financial assets at fair value through profit or loss Equity securities	\$	7,653	\$	_	\$	_	\$	7,653

Liabilities Financial liabilities at fair value through profit or loss Foreign exchange swap contracts Call options and put options of	\$	-	\$	2,615	\$	-	\$	2,615
convertible bonds Total	\$	<u>-</u>	\$	2,615	\$	13,743 13,743	\$	13,743 16,358

December 31, 2023	Level 1	Level 2	Level 3	Total
Assets Recurring fair value measurements Financial assets at fair value through profit or loss				
Equity securities	\$ 10,698	\$ -	\$ -	\$ 10,698
Foreign exchange swap contracts Financial assets at fair value through other comprehensive income	-	2,420	-	2,420
Equity securities	277,001	<u>-</u>	507,671	784,672
Total	\$ 287,699	\$ 2,420	\$ 507,671	\$ 797,790
	Level 1	Level 2	Level 3	Total
Liabilities Financial liabilities at fair value through profit or loss Call options and put options of convertible bonds Total	<u>\$ -</u>	\$ - \$ -	\$ 2,939 \$ 2,939	\$ 2,939 \$ 2,939

- D. The methods and assumptions the Group used to measure fair value are as follows:
 - (1) The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed share
Market quoted price	Closing price

- (2) When assessing non-standard and low-complexity financial instruments, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- (3) The valuation of derivative financial instruments is based on valuation model widely accepted by market participants. Forward exchange contracts and foreign exchange swap contracts are usually valued based on the current forward exchange rate.
- (4) The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- E. For the years ended December 31, 2024 and 2023, there was no transfer between Level 1 and Level 2.
- F. If one or more of the significant inputs are not based on observable market data, such financial instrument is included in level 3.

G. The following chart is the movement of Level 3 for the years ended December 31, 2024 and 2023:

		Equity s	securitie	es
		Years ended	Deceml	ber 31,
		2024		2023
January 1	\$	507,671	\$	492,625
Gains or losses recognized in other				
comprehensive income	(64,816)	(5,532)
Acquired in the year		78,377		23,841
Transfer to Level 3		-		4,253
Recovery of investment cost	(3,786)	(6,881)
Effect of change in exchange rate	<u> </u>	28,721	(635)
December 31	\$	546,167	\$	507,671

- H. Investment segment is in charge of valuation procedures for fair value measurements being adopted within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.
- I. The following is the qualitative information of significant unobservable inputs and sensitivity analysis to valuation model used in Level 3 fair value measurement:

	Fair value at		Significant	Range	
	December 31,	Valuation	unobservable	(weighted	Relationship of inputs to
	2024	technique	input	average)	fair value
Non-derivative eq	uity instrument:				
Unlisted stocks	\$ 121,688	Market price method	Discount for lack of marketability	10%~30%	The higher the discount for lack of marketability, the lower the fair value
Venture capital shares	424,479	Net asset value	Net asset value	15%~30%	The higher the net asset value, the higher the fair value
	Fair value at		Significant	Range	
	i an value at		Significant	Range	
	December 31, 2023	Valuation technique	unobservable input	(weighted average)	Relationship of inputs to fair value
Non-derivative eq	December 31, 2023		unobservable	(weighted	1 1
Non-derivative eq Unlisted stocks	December 31, 2023		unobservable	(weighted	1 1

J. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

			December 31, 2024											
			-	d in profit or oss	•	ed in other sive income								
	Input	Change	Favorable change	Unfavorable change	Favorable change	Unfavorable change

			Favorable	Unfavorable	Favorable	Unfavorable								
	Input	Change	change	change	change	change								
Financial assets														
Equity instruments	Discount for lack of marketability, weighted average cost of capital and long-term revenue growth rate.	± 1%	<u>\$</u>	<u>\$</u>	\$ 5,077	(\$ 5,077)								

13. Supplementary Disclosures

- (1) Significant transactions information
 - A. Loans to others: None.
 - B. Provision of endorsements and guarantees to others: None.
 - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 1.
 - D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: None.
 - E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
 - F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
 - G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paidin capital or more: None.
 - H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: None.
 - I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Notes 6(2) and 6(15).
 - J. Significant inter-company transactions during the reporting periods: Please refer to table 2.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 3.

- (3) Information on investments in Mainland China
 - A. Basic information: Please refer to table 4.
 - B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: The details of commissions expense and service expense paid by the Group to Fullboom Electronics (Shenzhen) Co., Ltd. for the years ended December 31, 2024 and 2023, and their outstanding balances (shown as 'other payables') as of December 31, 2024 and 2023 are as follows:

	Years ended December 31,									
		2024		2023						
Commission expenses	\$	12,484	\$	10,589						
Service expense	\$	20,379	\$	22,259						
	<u>Decem</u>	ber 31, 2024	Decem	ber 31, 2023						
Other payables	\$	2,547	\$	4,688						

(4) Information on major shareholders

None.

14. Operating Segment Information

(1) General information

The Group operates business only in a single industry. The Board of Directors who allocates resources and assesses performance of the Group as a whole, has identified that the Group has only one reportable operating segment. The Group manages the business from each consolidated entity's perspective.

(2) Segment information

Years ended December 31, 2024 and 2023: Only one reportable operating segment. Refer to the statements of comprehensive income for details.

The accounting policies of the operating segments are no significant different to the significant accounting policies summarized in Note 4. The Company's reportable segment income or loss are measured using the income/(loss) before tax.

(3) Reconciliation for segment income (loss)

Sales between segments are carried out at arm's length. The revenue from external customers reported to the chief operating decision-maker is measured in a manner consistent with that in the statement of comprehensive income.

Years ended December 31, 2024 and 2023: Only one reportable operating segment. Refer to the statements of comprehensive income for details.

(4) Information on products and services

Revenue from external customers is mainly from design, manufacturing and sale of integrated circuits. Components of revenue are as follows:

	Years ended December 31,									
		2023								
Sales revenue	\$	3,472,747	\$	2,660,978						
Others		470		990						
Total	\$	3,473,217	\$	2,661,968

- Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:
 - Parent company is 0.
 - The subsidiaries are numbered in order starting from 1.
- Note 2: Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):
 - The parent company to subsidiaries. Subsidiaries to the parent company.
 - (2)
 - Subsidiaries to subsidiaries.
- Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.
- Note 4: The prices and credit terms for the transactions between parent company and subsidiaries would be available for third parties. The terms for incomparable transactions are negotiated by the both parties.
