

Non-Use of Conflict Minerals Declaration

Etron Technology, Inc. hereby certifies that to our best knowledge our DRAM IC products are compliant with the applicable regulations of Non-use of Conflict Minerals. For clarity purpose, Conflict Minerals stated herein refer to tantalum (Ta), tin (Sn), gold (Au), tungsten (W), and cobalt (Co) from the Eastern region of the Democratic Republic of Congo (DRC) and its neighboring nations as well as armed conflict areas where metals are mined illegally from unacceptable working environments. We will conduct due diligence on the sources of these minerals and their smelters contained in our products through our supply chain.
